---

## Career Objective:

Currently having 1.2 years of experience with a strong performance background in a wide variety of professional system support tools for DEVOPS, my current role is to monitor, maintain build and release and the automation of all the task to maintain SLA life cycle, and to maintain new tools to improve process and save time, coordinate with other team member to collect the required information for build release, process automation for build and deploy.

## Professional Summary:

- A qualified Graduate, having 1.2 years of experience in IT industry.
- Automate deployment of infrastructure and applications, using infrastructure as code in continuous deployment with AWS cloud-based infrastructure including **EC2, S3**
- Expertise in AWS, experience in implementing new AWS Cloud platform and its features which includes **EC2, AMI, SNS, EBS, Cloud Watch, Autoscaling, IAM, and S3.**
- Creating **Virtual Private Cloud** and launching **EC2 instances** as per project requirement.
- Extensively worked on version control tool **GIT.**
- Creating branches, tags, taking back up from GIT server and merging.
- Providing GIT user access to all developers in the organization.
- Hands on experience in automating build process using, **Jenkins** tools.
- Expert in Elastic Beanstalk ec2 health-check and troubleshooting ec2.
- Responsible for Creating and maintaining builds and Administering **Jenkins** and Involved in Deployment related activities
- Good on working with **Nagios** for monitoring Fast detection of network and server outages and protocol failure.
- Good on working with platforms like **Windows** and **Linux.**
- Open to learn new technologies and tools.
- Managed infrastructure automation using **Terraform**.
- Closely monitor, identify, and resolve production issues by coordinating with developer.

## Professional Experience:

- Working as a **Software Engineer** at **Manuh Global Technologies Private Limited.**

## Academic Qualifications:

- Bachelors in Engineering -2020, Odisha, Biju Patnaik university of technology.
  Bachelors in Engineering**, Percentage:** 70%

- Diploma in Engineering, APPTC-BALASORE.
  Diploma in Engineering**, Percentage:** 70%

## Technical Summary:

- **Operating System** : Linux, Windows
- **Scripting Language** : Python
- **Database** : My SQL, Snowflake
- **Languages** : Basic Python
- **Monitoring Tool** : PagerDuty, Nagios
- **Version Control Tool** : Git, Git Bash
- **DevOps Tools** : Jenkins, Terraform, Nagios, Docker, Kubernetes
- **Cloud Technology** : AWS (EC2, S3, IAM, Elasticbeanstalk (EBS), CloudWatch)

## PROJECTS:

**Client** : **Learning Management System.**
**Tools** : AWS, Jenkins, Snowflakes, Terraform, Docker, PagerDuty, Grafana, Nagios
**Duration** : Sep 2021 to June 2022
**Role** : Associate Software Engineer

### Description:

Worked on a Cloud-based Learning management system. Worked on Infrastructure as code deployment through CI/CD **(AWS, Jenkins, Grafana, Postman, Git, Terraform, Nagios).**
Created automated pipeline using Git API to carry out various infrastructure deployments and tracking deployment. Student Performance Monitoring Tool **(Snowflake, Grafana)**

### Responsibilities:

- Worked on AWS services **(EC2, S3, IAM, Elasticbeanstalk, Cloud watch**) for building infrastructure.
- Created AMI from EC2 and experienced in copying AMI
- Worked on Snowflake to resolve various technical issues related to client LMS data.
- Worked on analyzing LMS data to bring values to the business.
- Worked on API calls using postman.
- Used **Nagios** for fast detection of infrastructure outages.
- Created Terraform scripts for designing a cloud model of the current infrastructure
- Monitor, fix, and improve infrastructure continuously.
- Troubleshoot any operational issues related to the infrastructure.

## Personal Information:

| | | |
|---|---|---|
| Father's Name | : | Kallola Lenka |
| Name | : | Akshyansha Lenka |
| Date of Birth | : | 23/05/1996 |
| Sex | : | Male |
| Marital Status | : | Single |
| Email &Skype id | : | akshyanshal@gmail.com |
| Nationality | : | Indian |
| Address | : | Bhadrak, Odisha |

### Declaration:

I hereby solemnly declare that all the above furnished details are correct to the best of my knowledge.
